(je eine Stelle!)

sonst alles

zwischen 4 und 5

250 mH. 2 bis 3 Std.

Sehr genussvolle Kletterei

für den Nachmittag

(Route 14^{1/2} im Schatten!)

Besonders der obere Teil

bietet exzellente Kletterei

in, mit Griffen üppig

ausgestatteten Platten

in festem Fels.

Unterer Teil wurde vom lockeren

Gestein ausgeräumt und wird

(solang nicht abgeklüftet)

etwas von Splitt und Sand

übersät sein.

Die Route ist sehr gut abgesichert

alle Haken (4) und sämtliche

Schlingen wurden fixiert und

besessen.

• Ideale Eingeburtour im Wadi!

↳ da gibt es schon sehr viel

geeignete Touren. Die ersten beiden

St. sind alles andere als neu. 2^{ter}

Stand ist Scheisse (loser Haken).

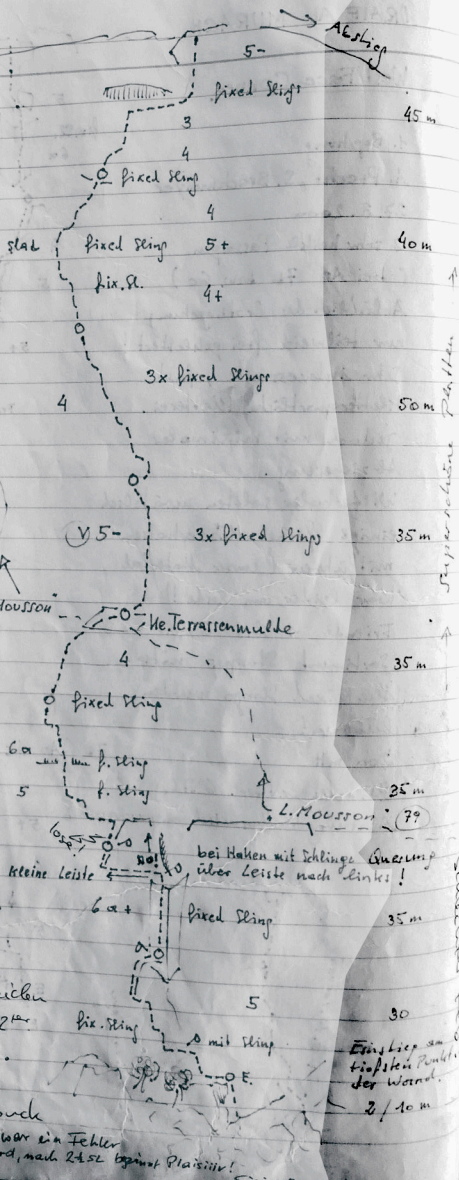

→ nach 2 1/2 St. rausgequert *

3.11.2000 gemacht von ... durch

Helene ...

* das war ein Fehler

Bernard, nach 24 St. beginnt Plaisir!

- ★ situation des rappels de descente
- ▲ bivouac

Belle escalade sur un rocher parfois étrange mais très bon dans l'ensemble. La partie inférieure est exotique, elle peut éventuellement s'éviter par un couloir facile en versant sud. Descente : longer le haut de la face sud puis descendre un éperon rive droite d'une gorge que l'on rejoint au moment où elle devient abrupte. Un rappel de 25 m (rive gauche), une brève désescalade et un nouveau rappel de 50 m mènent au sol.

Jordanie / Rum

Djebel Um Razza. Face nord

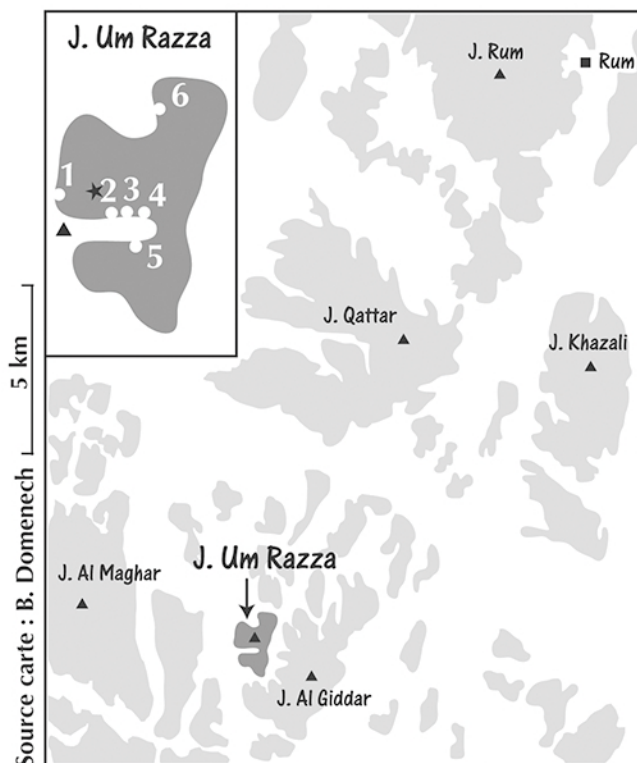

Secteur A l'Ouest Rien de Nouveau

1 : Le Coeur de ma Poulette. A. Cathala et O. Didon. 16/11/03. Coinceurs et friends. Ensemble en V.

2 : Garbure et Cornichons. V. Séger et R. Thivel. 27/11/03. Friends et sangles. Descente en rappel dans la voie (quelques mètres de désescalade en III dans le haut). De jolis pas en dalle dans L2.

3 : A l'Ouest, Rien de Nouveau. P. Jammeron et A. Vildard. 15/11/03. Coinceurs et friends. Belle fissure régulière. Descente par "Garbure".

4 : Mas Bread, More Pan. T. Berges et R. Thivel. 27/11/03. Friends jusqu'au camalot 3.5. Très belle escalade. Descente par "Garbure".

SOUMISES

TD+, 280 m

Magnifique voie très variée,
en excellent rocher.

Accès : remonter
Rakabat canyon
jusqu'à un petit col,
d'où l'itinéraire se
voit très bien. En
descendre, laisser à
gauche la gorge qui
mène à "The Beauty"
pour emprunter la
suivante, quelques
mètres plus loin. Un bref
chaos de blocs mène au pied
de l'écaille de départ. Les deux
premières longueurs avaient
été gravies en 1994 par W.
Colona et B. Domenech.

Retour : gagner
facilement le sommet.
Descendre des domes
direction nord-ouest
jusqu'à un petit plateau
noir d'où une gorge
permet de rejoindre les
rappels de "The Beauty".

Toro "From Sand to Stone"

Summit

Al Magharrar „From Sand to Rock“, Bernd Arnold, Egbert Doezkal, 31/15 Dezember 2009

Location: The Domes of Al Magharrar (see Tony Howard: Ticks & Climbs in Wadi Rum, 1994, page 178)

The route is on the ~~middle~~ East side of the Dome, which lies east of the Dome 1232 and north of Dome 1240; the route is on the black wall to the right of a blunt edge; the wall is about 120 m high; it can be seen when driving along the west side of Jebel Khazali - in the far distance (about 20 km from Wadi Rum Village)

How to find the Dome/How to get there: Contact → Hassan Odeh +962 (0) 777 269 256 (mobile)
Ahayak Aouda +962 (0) 795 834 736 (mobile)

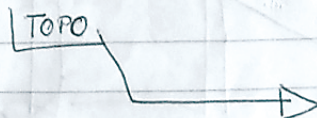

Character of the route: fully equipped (bolted) sports climb up the black wall; on solid rock,^① which is among the best, Wadi Rum has to offer; in a most beautiful and remote part of the desert

① with the exception of the first 6 m, which are well protected

Gear: 60 m rope sufficient, 10 quickdraws, (belays are on the bolts with abseil carabiner); some small wires/rocks and kevlar slings optional

Descent: abseil down the route

The top of this dome can also be reached by ^{easily} scrambling up its west face/side along gullies and terraces, marked by cairns, ~ 30/45 min.

21/01/99 Jebel Khazzali - W face.

Matériel: 1 jeu complet de friends + 1 jeu de bicoins + quelques sangles
1 seul spit est en place dans chaque voie

Descente: par les rappels de Black Magic (compter 1h30)

- (A) Voie magnifique, l'une des plus belles incontestablement de Wadi Rum, avec une longueur clef particulièrement expo et délicate - Devenirait à coup sûr classique si on rajoutait 2 scellements dans la longueur clef - Les 3 dernières longueurs, plus fautes, sont extraordinaires - Descente en rappel délicate et en tout cas non équipée -
- (B) Belle voie variée très bien protégeable hormis la longueur dure qui est engagée en dalle - Descente en rappel possible dans la voie mais mieux vaut utiliser les rappels de Black Magic

JHRIN TOWER

" RUND UM DIE WELT "

1. Begehung Albert Precht u. Sipi Brachmayer

V+(einige länger Passagen) Rest: EASY bis IV; 500 mH.

Sehr lange, wildromantische Route, zum Wandern und zum Klettern! Der leichteste Anstieg auf den JHRIN-TOWER. Den unteren Teil klettert man an der Ostseite (JHRIN VALLEY) so gelangt man in den tiefen Einschnitt zwischen JEBEL KHARASEH und JHRIN TOWER. Durch diesen SIQ zur SÜDWEST-SEITE des Berges. Rechts vom markanten AMPHITHEATER zieht eine Schicht, welche das JHRIN-Nauptmassiv vom JHRIN TOWER trennt, sie erfüllt den wundervollen, genussreichen Kletterweg des oberen Teils.

Zeit: etwa 5 bis 6 Std

Abstieg: Längere stecken des oberen Teils, können frei abgeklettert werden. Abseilstellen siehe Pfeile! (50 m Joppelsack erforderlich) 2 bis 3 Stunden bis ins MAKHM CANYON

150 mH. III u. IV

Punkel Tower - South west Face

1. Begehung A. Precht, S. Brachmayer
6b+ vorwiegend 5 bis 6a
350 m, TD, 4-5 hours.

Excellent climbing on good steep rock.

Sehr interessanter Weg, besonders die Wand rechts der großen Verschnaidung bietet herrlichen Fels und eine

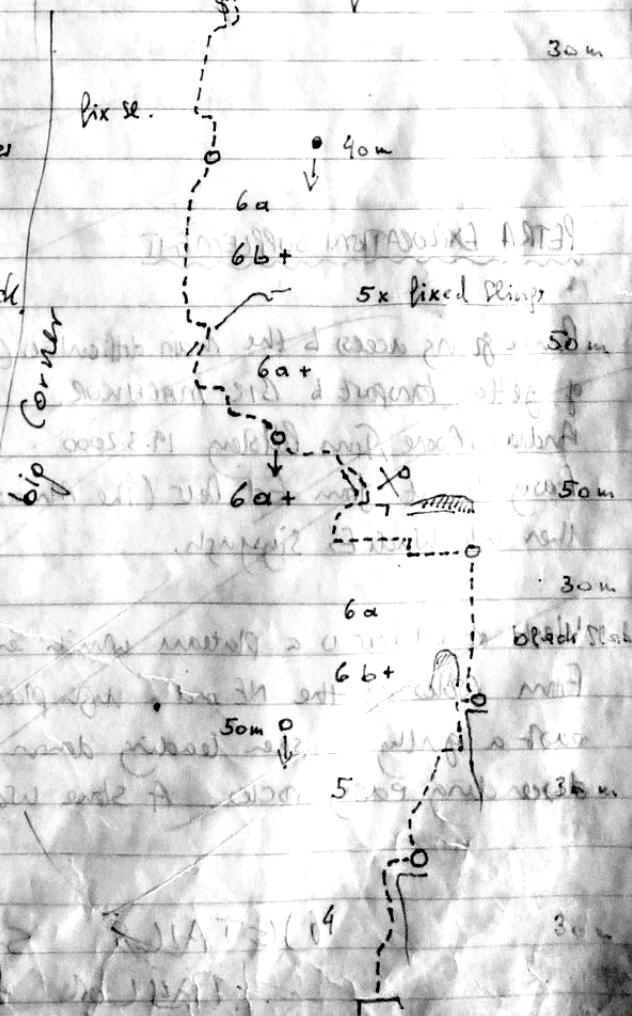

Super-Kletterei. Die Absicherung ist gut und fast alle Schlingen und 1 Haken wurden belassen.

Die ^{Links} ~~Rechts~~ Querung zur Rampe des Punkel Tower ist ~~anderer~~ ausgesetzter aber nicht schwierig (schmales Band

bevor sich hoch über Wand befindet). Die Rampe selbst wechselt an Schwierigkeiten! Abseilstelle

u. Verschnaidungen.

Descent: AL seilen R 115 (1 1/2 hours)

JEBEL JHSRIN SOUTH FACE

NABEDDER PILLAR

1. Begehung A. Prellt und Pipi Brachmayer

VI einige Passagen, sonst meistens zwischen IV u. V+
Abwechslungsreiche, sehr schöne Kletterei in gutem
Fels. Sehr originelle Kletterstellen!

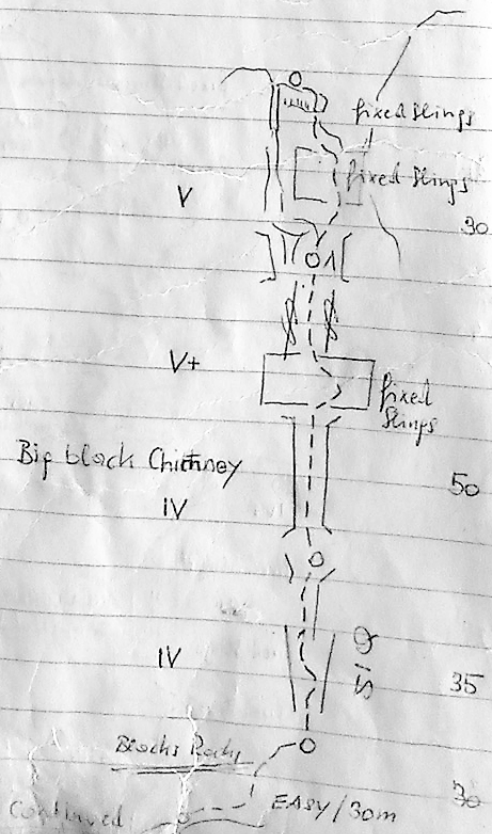

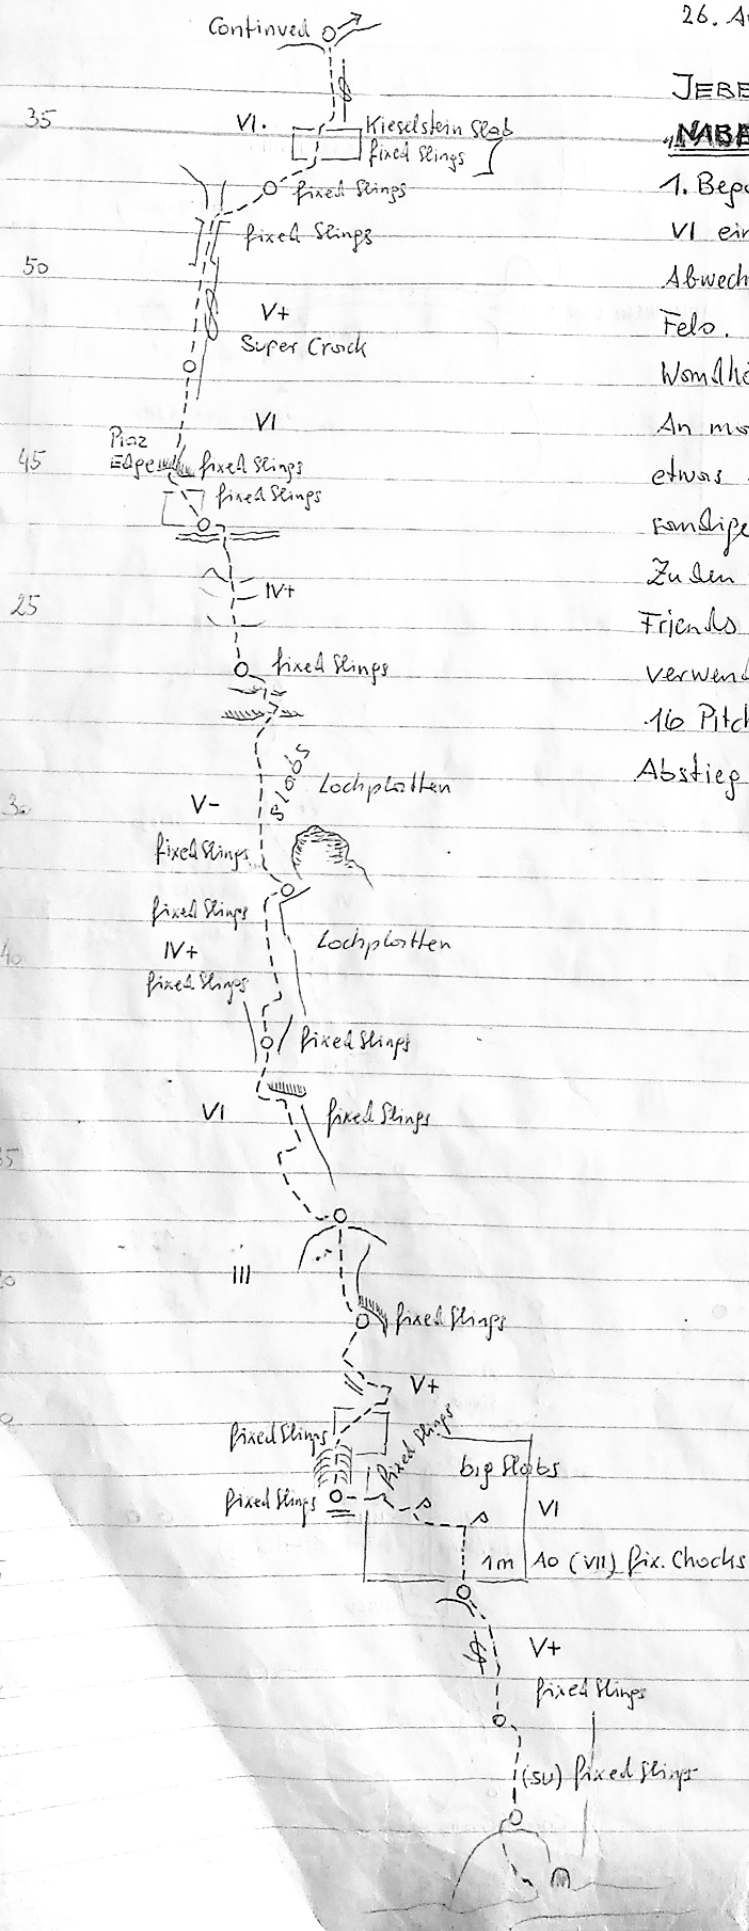

Wandhöhe 400 m. Zeit etwa 6 Std.

An manchen Passagen ist der Fels
etwas staubig, es gibt jedoch keine einzige
fandige Stelle in der Tour.

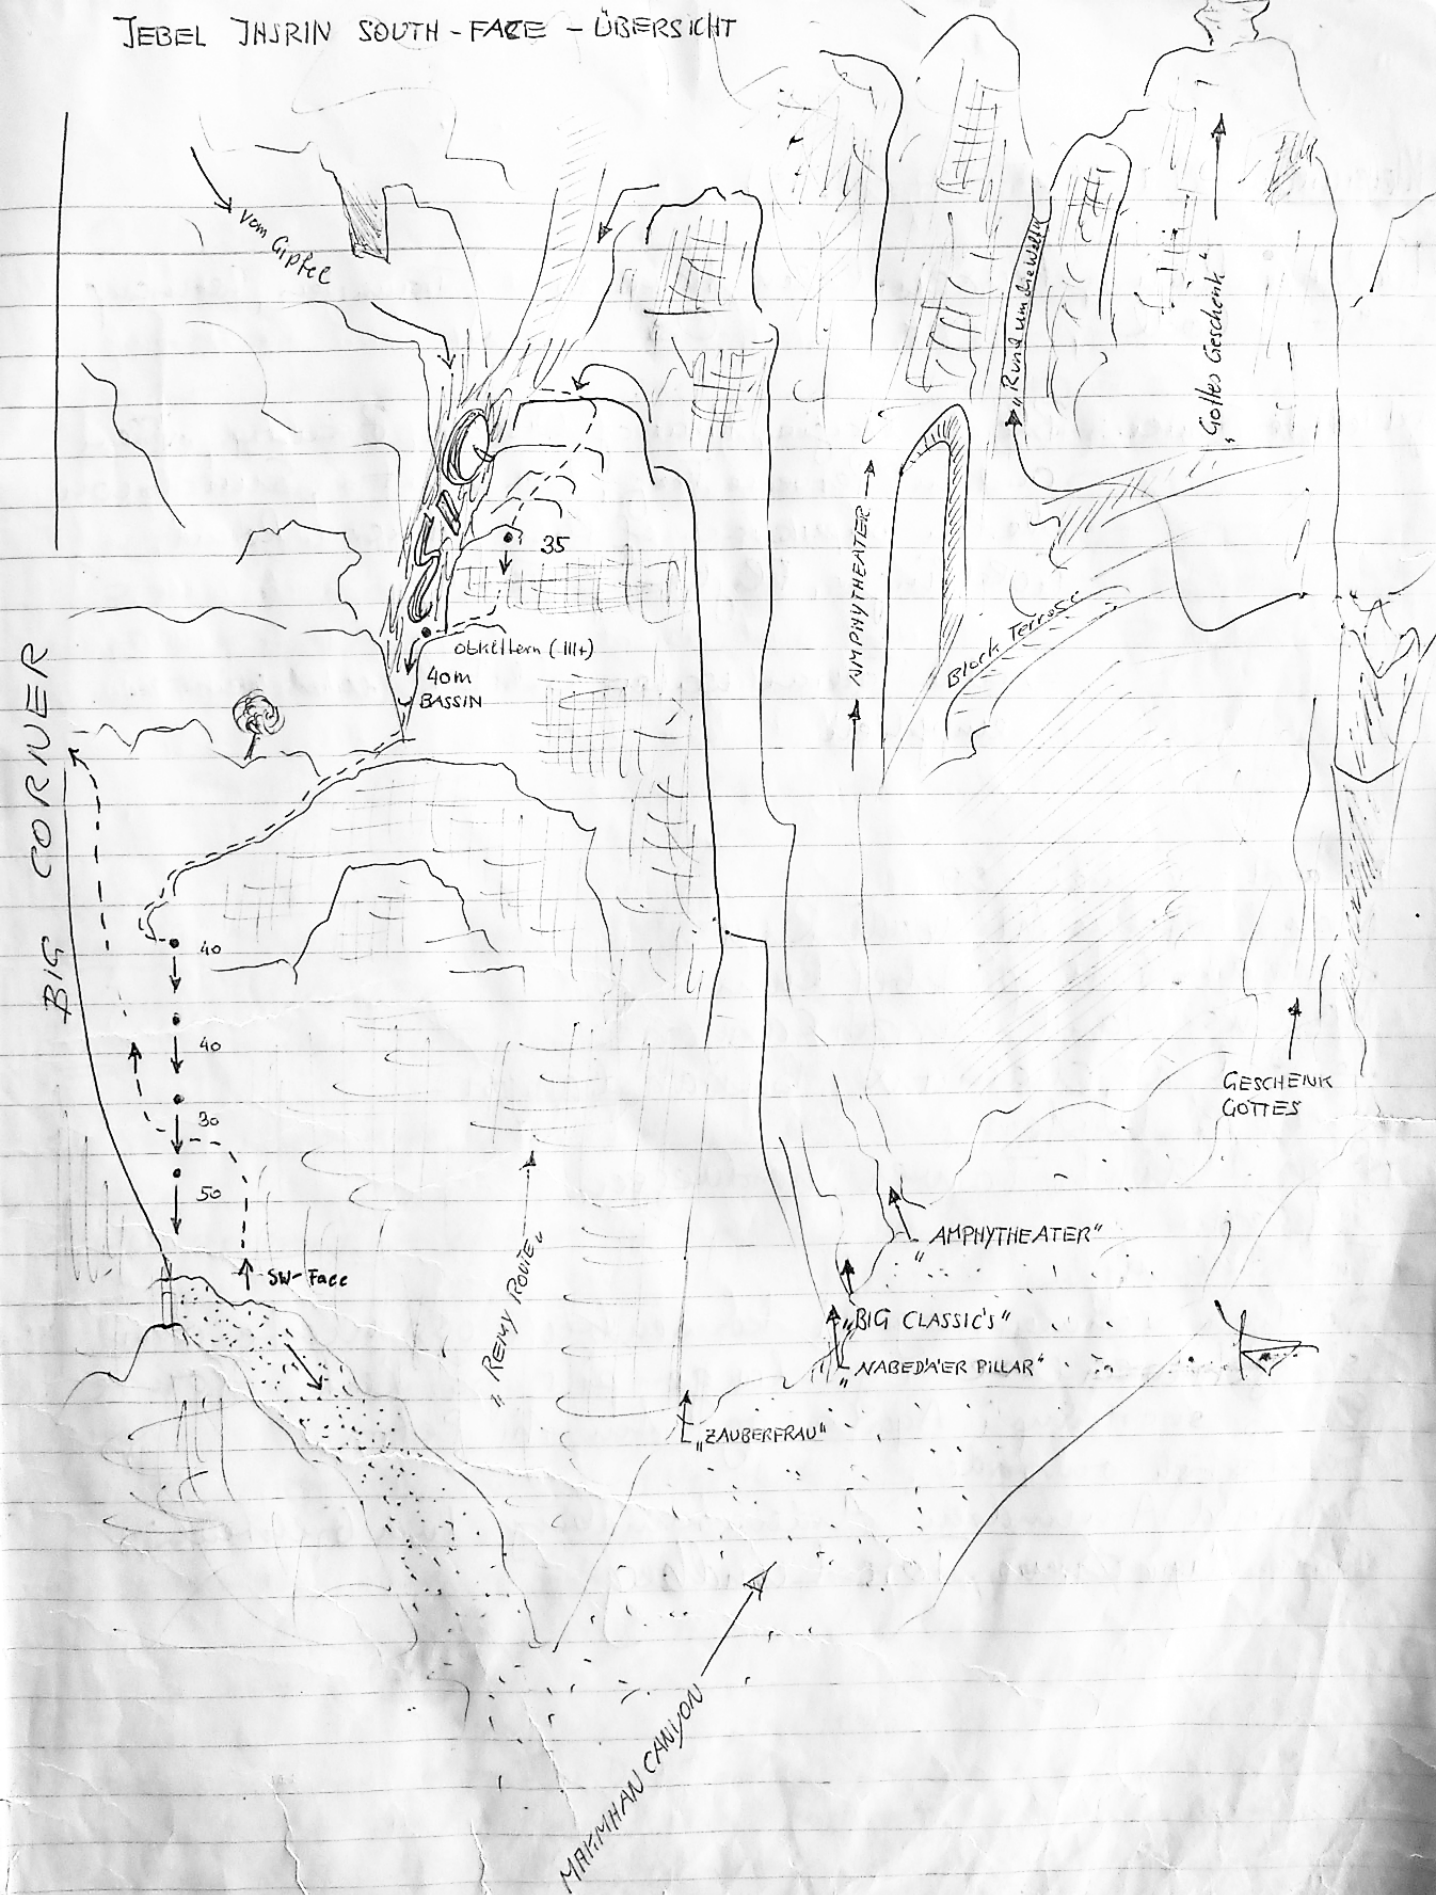

Zudem vielen fixierten Schlingen können
Friends & bis 3 bzw. größere Stopper
verwendet werden.

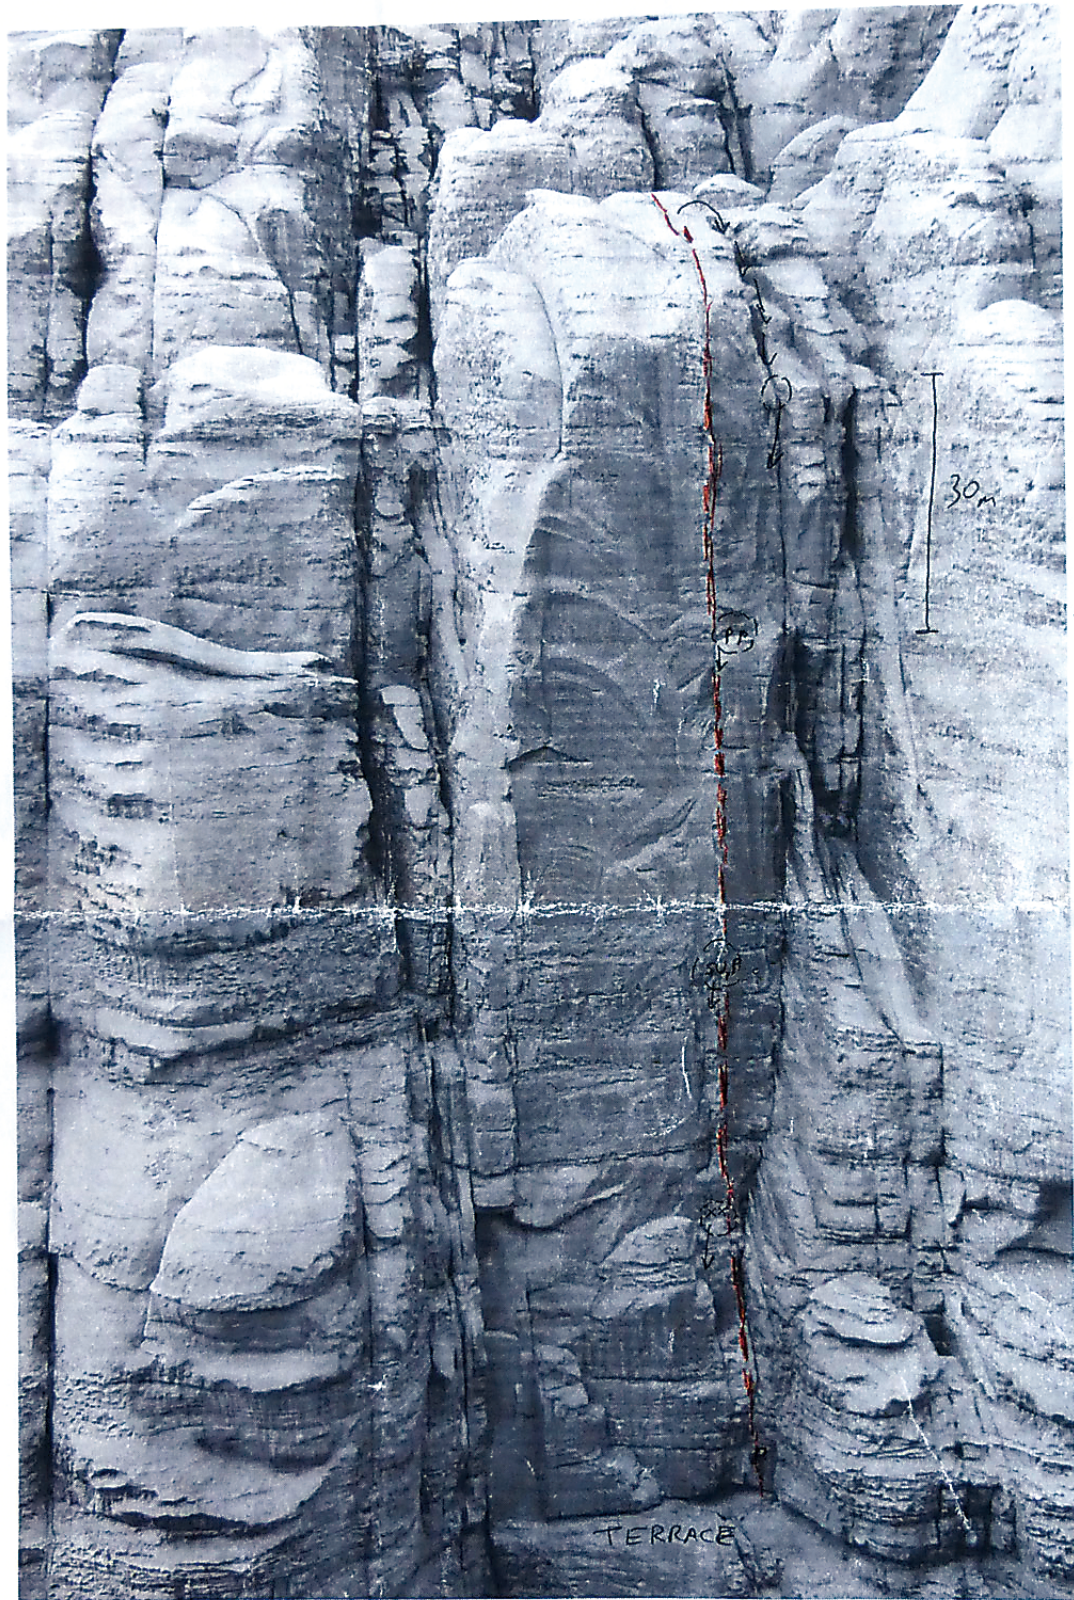

16 Pitches (davon zwei leichte)

Abstieg: siehe rechte Seite!

JEBEL INSRIN SOUTH - FACE - ÜBERSICHT

We climbed the line in this photo and later saw in Precht's topos a reference to a line named "Big classic", no detailed topo of the route. There was one peg in the beginning of the first pitch starting from the terrace so we weren't the first ones to try it, probably.

start from Makman canyon opposite the start of Rock Fascination left of a cave, cairns and slings mark the way, 200m to the terrace in the photo.

(ROPE: 2x 50m, QUICKDRAWS: 13)
DESCENT: EASY, ALONG THE ROUTE
APPROACH:

SECOND CANYON AFTER THE ABU IGLAHAT CANYON, IF YOU ENTER FROM THE NORTH
EASY APPROACH FROM THE SOUTH
THE ROUTE "KICIA" IS ON THE BLACK-BROWN-STREAK (RIGHT WALL)
FIRST RED POINT ASCENT: 25.IV.2008

② NEW ROUTE "ABU ALI" - 100m

"ABU ALI" STARTS ON THE SECOND BLACK STREAK THE RIGHT FROM "KICIA" IT'S APPROACH ROUTE NOT WORTH TO REPEAT IN OUR OPINION.

"ABU ALI" CLIMBED GROUND UP, ON SIGHT. FIRST: BLACK BOULDER AND SAND - (WE DRILLED SOME NAILS KEVLAR). SECOND: DOUBLE CRACK

COMMENTS: THIS IS OUR FIRST ROUTE OPENED FROM THE ABSEIL (TOP → DOWN), WE THINK IT COULD BE INTERESTING

ALTERNATIVE FOR MOST OF THE BARRAH ROUTES. THIS IS SPORT MULTIPITCH. REQUIRES NO CAMS AT ALL. WE FELT - TO ABSEIL DOWN - IS THE ONLY REASONABLE WAY TO FIND

THE LINE AMONG ALL THOSE SANDY, BREAKING HOLDS. "KICIA" CLIMBS UP NUMEROUS SMALL OVERHANGS AND SLABS. IT NEEDED TO BE CLEARED. DAVID SPENT 5 DAYS BRUING FRIABLE EDGES AND WE THINK THIS ROUTE WILL BE A PLEASANT CLIMB FOR YOU.

AUSTRIA

17. 11. 98 "HIDDEN CRACK" 300m, T.D, 4hours (Barreil Canyon)

This new route follows the first three pitches of "Honte A Vous" (No. 208) at "Merlin's Wand" in Barreil Canyon to reach a slight crack line which lies hidden in the left part of the wall and leads directly to the top of the domes. The route presents six new pitches of at least the same sustained quality than the three cracks of Merlin's Wand. Excellent protection by small cracks and pinpoints.

DUNIA 6C EXPO 130m

Danza Vertical Around the World

David Bautista y Carlos Rubio
28 de Noviembre 2011

Material:
1 juego de Friends
hasta el n° 4

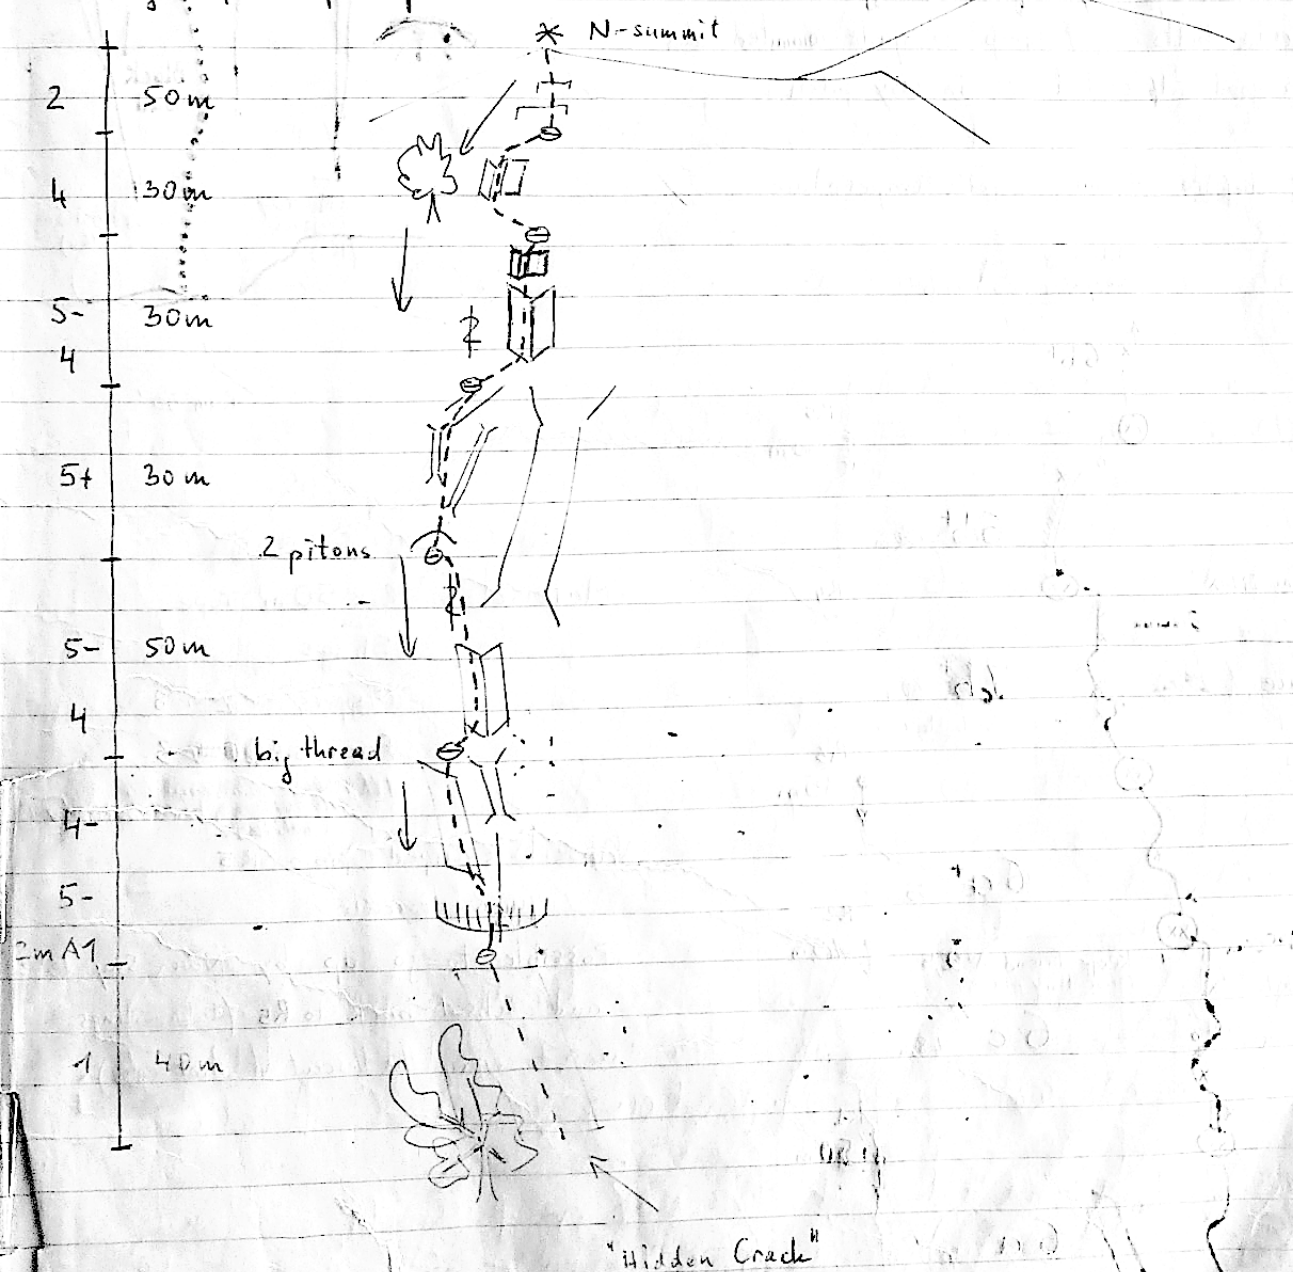

Descenso: descepa desde la cumbre o por la fisura o la placa de la de Rapel de la R3 y Rapel de la R1

JEBEL ABU JUDAIDAH - N-SUMMIT - NE-FACE (ca. 1550 m)

18.11.78 "ARGILA" 200m, T.D. inf., 2.5 hours

The typical continuation of the "Hidden Cracks" is given by the easiest line that leads to the N summit of Jebel Abu Judaideh. It follows an obvious system of cracks and Chimneys through the headwall to the left of the NE-pillar. At the first ascent we arrived from "de Rumeaux de la Plie" (No. 20+) (3-4 hours). The route offers various cracks climbing up to a nice top with one artificial crack at the beginning. 1-2 big friends might be useful. Descent by abseil. Slings are in situ. Small gear for artificial pit.

THOUSAND THANKS TO AFA AND ACHMED
